

PH UP LIQUID CONCENTRATE MIXING CHART

INSTRUCTIONS:

1. Individually weigh out the amount of Ambrosia Cropz PH UP that corresponds with the desired concentration for your injection range and amount of gallons you intend to mix.
2. Fill your stock tank to the desired amount of water.
3. Add the desired amount of Ambrosia PH UP to the water in the stock tank and agitate or allow to recirculate.

INJECTION RANGES (ml/gal)

WEIGHT - GALLONS	1-11 ml/gal (0.03-0.3%)	7.5-75 ml/gal (0.2-2%)
Ambrosia Cropz PH UP (grams/gal)	448	112
Ambrosia Cropz PH UP (pounds/gal)	1	0.25
Ambrosia Cropz PH UP 20 Gallon Stock Tank	20 gal of H2O + 25 lbs (1x25 lbs bag)	20 gal of H2O + 5 lbs (1x5 lbs bag)
Ambrosia Cropz PH UP 60 Gallon Stock Tank	60 gal of H2O + 75 lbs (3x25 lbs bag)	60 gal of H2O + 15 lbs (3x5 lbs bag)
USAGE NOTES:	*Typical injection ranges for this mix rate are between 1-9 ml/gal.	*Typical injection ranges for this mix rate are between 9-27 ml/gal. It is highly unlikely you will need to exceed 37.85 ml/gal or 1% injection
